OSA-3234-63
18 JUN 1963

MEMORANDUM FOR THE RECORD

SUBJECT: [REDACTED]

1. The reinstatement of [REDACTED] has been scheduled by HQUSAF to be accomplished on 28 June 1963. Subsequently, [REDACTED] will return to [REDACTED] with the intent to get in his minimum flying hours in the first week of July and then move his family and affects to Washington, D. C., taking approximately 15 days leave enroute. Upon his arrival in Washington, D. C., he will report to Project Headquarters as a military detail.

2. We have initiated the necessary paperwork for his assignment; however, there are certain processing requirements that also must be reckoned with as follows:

- A. Security approval, including polygraph; and
- B. Satisfaction of Agency medical standards.

Pursuant to OSA-2322-63, which is a memorandum for the Record on [REDACTED] originated by Chief of Security Staff, OSA, it appears that [REDACTED] will undergo the polygraph examination. With respect to the medical processing, Personnel Branch, OSA, intends to either encourage the normal medical exam or its waiver by substituting the most recent Lovelace medical of May 1963, which ever appears to be more practicable and efficient.

3. Since serious security and cover problems would arise if [REDACTED] presented himself to the Edwards Transportation Officer as a military officer, we will support the travel of himself, his family and household affects under the Joint Travel Regulations on a direct reimbursement basis.

[REDACTED]
Chief, Personnel Branch
